

**FOR IMMEDIATE RELEASE**

**LADIES DIAMOND POKER CLUB LAUNCHES POKER LEAGUE FOR WOMEN**

*Company to create the ultimate ladies night out with unique, 'lady friendly' poker events*

Las Vegas, Nevada (March 31, 2009) - In a statement issued today, the Ladies Diamond Poker Club (LDPC) announced the launch of a new poker league catering to the growing number of female poker players.

"Poker is not just for men anymore," says Nancy Todd Tyner, Co-founder and Chairman of the LDPC. "The Ladies Diamond Poker Club is getting ladies excited about playing poker with the launch of our ladies poker tournaments."

"Poker continues to be one of the fastest growing games in America and LDPC recognized that women are actually the fastest growing demographic in the game of poker," stated Tyner. "The LDPC tournaments are a place where ladies can play, learn and have fun at events catering to women. Our prize pool is structured so about 50% of the ladies share in the cash payouts so more ladies are walking away winners. This is different than most poker tournaments where only the top few ever walk away with cash prizes."

The LDPC prize/pool structure is so unique, from the Four Queens Bonuses to the First Lady Out Bonus, who receives a personally signed DVD of Nancy Todd Tyner receiving the WTP® Ladies World Champion.

LDPC has a corporate philosophy of giving back to causes that have touched the lives of those within the organization. They have partnered with three charities and will be donating \$1 from each paid registration to their charity partners. In addition, they provide volunteer hours and professional services to their selected charity partners.

"Our tournaments will be starting on the West Coast and moving across the country," said Tyner. "Our first tournament is scheduled for Mother's Day at Peppermill Resort Casino Reno. Our second event is Saturday, May 16 at Tulalip Additional dates are being added at a rapid rate so we encourage players to check the website often for updates. Once on the website they can sign up to become a member and receive our free newsletter, advance notice of tournaments and special discounts."

###

*The concept of an all ladies league is the brainchild of Nancy Todd Tyner, the first & reigning WPT Ladies World Champion and John George, a marketing expert. After a chance meeting at a live poker tournament at Caesars Palace in Las Vegas, the two decided to become partners creating what the world was craving, a 'lady-friendly' poker league. The Ladies Diamond Poker Club was born.*
