If you prefer, you can watch their video tutorial (the button to the left of the heart) that walks you through it step-by-step, before you do anything. It's very easy, we promise.
- You will be asked to enter a user name when you sign up. This will be the name that identifies you when are playing on the site and can't be changed, so you might want to think about it for a bit before signing up.
- When you get to the page that asks you where you heard about PokerStars you will see a spot at the bottom that asks for a marketing code. **You must use this code to sign-up: psm0013** .
